Asia Pacific Association for Diabetic Limb Problems (APADLP)

Objectives

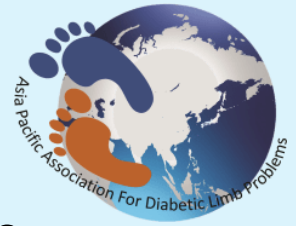

Advance the Science & Practice of Health Care on Diabetic Foot Problems and
to better serve out patients

What we do

- Introduce Latest Technologies on Wound Care, Foot Care & Facilitate Networking amongst HCPs of different countries
- Promote Professional Awareness on DFP
- Promote Education on DFP for Patients & HCPs
- Promote Basic & Clinical Research on DFP

ADADLP Conference

- Brings together practitioners and scientists to build and develop thriving scientific societies, health care agencies, and academic institutions in Asia Pacific Regions.
- Integrate their knowledge toward a common language of accepted standards and practice in diabetic limb problems
- Members of the Asia Pacific Diabetic limb management community share and learn about new research and best practices in the field.

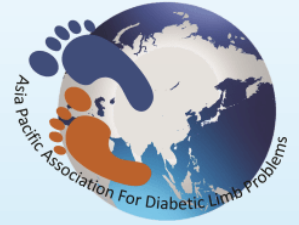

WHY SUPPORT the 20th APADLP Conference?

- Reach and expose products to Key Opinion Leaders of various disciplines - doctors, nurses, and allied health professionals etc.
- Launch and market latest products in the assessment, treatment, and care of diabetic foot problems and wound care.
- Target audience of over 180 participants
- Target above >30% of international participants relating to diabetic wound care.
- Grow your brand and presence in the wound care fraternity
